The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the IAEA's Member States and has the honour to draw their attention to the **International Training Course on the Security of Radioactive Material in Use and Storage** (hereinafter referred to as "event") to be held in Obninsk, Russian Federation, from **16 to 20 May 2022**.

The purpose of the event is to enhance the participants' understanding of key IAEA guidance on the security of radioactive material and associated facilities in use and storage.

The attached Information Sheet provides further details of the event.

The event will be held in English and Russian.

Member States are invited to designate one participant to represent the Government at this event. Member States are strongly encouraged to identify suitable women participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event. The application for financial support should be made at the time of designating the participants using the attached Grant Application Form (Form C).

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in IAEA events. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

Designations should be submitted to the IAEA through the competent national authority (Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) not later than **18 March 2022** using the attached Participation Form (Form A). Completed and authorized Participation Forms should be sent either by email to: [Official.Mail@iaea.org](mailto:Official.Mail@iaea.org) or by fax to: +43 1 26007 (no hard copies needed). Copies should be sent by email to the Scientific Secretary of the event, Mr David Ek, Division of Nuclear Security, Department of Nuclear Safety and Security (Email: [D.Ek@iaea.org](mailto:D.Ek@iaea.org)), and to the Administrative Secretary, Ms Hiroko Dyck (Email: [H.Dyck@iaea.org](mailto:H.Dyck@iaea.org)). The Scientific Secretary of the event will liaise with the participants directly concerning further arrangements, including travel details, as appropriate, once official designations have been received.

Should Governments wish, in addition, to appoint one or more observers to assist and advise the designated participants, they are kindly requested to inform the IAEA of the names and contact details of any such observers by the above date. In accordance with the established rules, Governments are expected to bear the cost of attendance of any observers they may send to IAEA events. Compensation is not payable by the IAEA for any damage to or loss of observers' personal property or for illness, injury or death occurring while travelling to or in connection with their attendance at IAEA events.

The Secretariat of the International Atomic Energy Agency avails itself of this opportunity to renew to the IAEA's Member States the assurances of its highest consideration.

# **International Training Course on the Security of Radioactive Material in Use and Storage**

**Hosted by the  
Government of the Russian Federation**

**through the  
Rosatom Technical Academy**

**Obninsk, Russian Federation**

**16 to 20 May 2022**

**Ref. No.: EVT2105223**

## **Information Sheet**

### **Introduction**

This standard training course is based on the needs expressed by numerous States from around the world and is organized on a regular basis. The course will focus on the security of radioactive material in use and storage and aims to provide participants with an overview of nuclear security in their own countries and organizations.

### **Objectives**

The objectives of the course are provide participants with: (i) an overview of the international legal framework for nuclear security, assistance programs, IAEA guidance and the examples of regulatory frameworks for the security of radioactive material; (ii) an appreciation for the need to protect radioactive material, associated facilities and associated activities from unauthorized removal and sabotage; (iii) a grounding in the basic principles and methodology of the security of radioactive material and associated facilities; and (iv) an opportunity to test and apply what they learned in classroom exercises.

## Target Audience

Participants should be responsible for, or closely involved in, their national programmes for regulating radioactive material security, or be users of radioactive material. They should have a background and related experience in operational aspects relating to the use of all categories of sources, radioactive source regulation, security for radioactive materials or associated facilities and/or response forces.

## Working Language(s)

English and Russian

## Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **18 March 2022**. Participants who are members of an organization invited to attend are requested to send the **Participation Form (Form A)** through their organization to the IAEA by above deadline.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Participants are hereby informed that the personal data they submit will be processed in line with the [Agency's Personal Data and Privacy Policy](#) and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required. Further information can be found in the [Data Processing Notice](#) concerning IAEA InTouch+ platform.

## Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

The application for financial support should be made using the **Grant Application Form (Form C)** which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the **Participation Form (Form A)** by **18 March 2022**.

## **Visas**

Participants who require a visa to enter Russian Federation should submit the necessary application as soon as possible to the nearest diplomatic or consular representative of Russian Federation.
