

9th International Conference on Tracers and Tracing Methods
Benicàssim, Spain
14 to 16 May 2024

Please note a TC sponsored event under the framework of the IAEA technical cooperation project RER1023 - *“Harmonizing Implementation of Radiotracer and Sealed Sources Techniques for Efficient Use of Natural Resources and Environmental Monitoring”*, for participation in the **9th International Conference on Tracers and Tracing Methods**, to be held in **Benicàssim, Spain**, from **14 to 16 May 2024**. Please refer to the [Event website](#) for more information.

Since 1998, the primary objective of the « Tracer » conferences has remained to present the current status and trends on tracing methods and their applications. It progressively evolved to also present studies in flow modelling and simulation (numerical tracing, CFD, compartmental and systemic modelling). It is the opportunity for attendees from different fields to exchange scientific information and knowledge about tracer methodology and applications.

Considered will be nominations of the applicants, who's abstracts are accepted by the conference organizer and who will provide an Acceptance Letter.

Nomination forms can be submitted online (<https://intouchplus.iaea.org>) under the event number **EVT2402396**.
