

Digital Safety Systems: Opportunity or Liability?

12–13 November 2025
Cologne, Germany

Join leading experts
from across Europe for a
two-day workshop exploring the
evolving role of digital safety systems in
nuclear oversight. Hosted jointly by ENSRA
and WENRA, this event will bring together regulators,
technologists, and innovators to discuss the opportunities
and challenges of digitalisation in safety-critical environments.
Please register until mid of October with veronika.bergert@grs.de
