

Dear Sir or Madam,

We are delighted to invite you to the **European Radioisotopes Valley Initiative (ERVI) Stakeholders Forum** which will take place in **Brussels on Wednesday, September 10** at DoubleTree by Hilton Brussels City.

The ERVI Stakeholders' Forum will bring together key representatives involved in different steps of the supply chain of medical radioisotopes. This event will be held in the framework of the on-going work by the European Commission towards the establishment of the "*European Radioisotopes Valley Initiative (ERVI)*", under the SAMIRA Action Plan and recently announced under the REPowerEU Roadmap towards ending Russian energy imports [COM(2025) 440 final].

ERVI will be aimed at strengthening the supply chain of medical radioisotopes by reducing dependency on foreign supplies, in particular Russia, optimise industrial-scale production of radioisotopes, and support research into novel nuclear medicine therapies and radioisotopes production technologies. ERVI will ultimately help increase the EU's autonomy, maintain global leadership in the nuclear medicine sector and enhance patient's access to cancer treatments.

If you would like to attend this event either in person or online, please **register** via the following [link](#) **before Friday 08/08**.

We remain at your disposal should you have any questions.

With kind regards,

The SAMIRA-ERVI Secretariat Team
