

**Workshop on Advanced Radiotherapy Dosimetry Techniques**  
**“Patient Specific Quality Assurance”**  
**supported under the Regional TC Project RER/6/040**

<b>Event Number</b>	SP-RER6040-EVT2205850
<b>Event Title</b>	Sponsored Participation for Workshop on Advanced Radiotherapy Dosimetry Techniques - Patient Specific Quality Assurance
<b>Location</b>	Novi Sad, Serbia
<b>Date</b>	1 to 4 December 2022
<b>Nomination Deadline</b>	12 October 2022
<b>Course Information</b>	<p>The purpose of the workshop is to introduce and clarify available patient specific quality assurance methodologies for advanced radiotherapy (IMRT/VMAT and SRS/SBRT), and to provide workshop participants with necessary skills and knowledge to conduct quality assurance procedures and evaluate measurement results.</p> <p>The course is composed of two-day scientific programme with additional two-day clinical, hands on work.</p> <p>Programme and additional information are available on the website: <a href="https://psqa.pmf.uns.ac.rs/">https://psqa.pmf.uns.ac.rs/</a></p>
<b>Main Contact</b>	<p>Serbian Association of Medical Physicists  together with Oncology Institute Vojvodina and  and Faculty of Sciences, Department of Physics, University of Novi Sad  21000 Novi Sad  Serbia</p> <p>Ms Borislava Petrovic  Email: <a href="mailto:Borislava.petrovic@df.uns.ac.rs">Borislava.petrovic@df.uns.ac.rs</a></p>
<b>Selection Criteria</b>	The workshop is primarily aimed at medical physicists and radiation therapy technologists directly involved in external beam radiotherapy patient specific quality assurance with minimum 2 years of clinical experience and at least some experience in IMRT and SBRT quality assurance procedures and who want to expand their knowledge and skills.
