

# **Educational Workshop on Regulatory Challenges in Small Modular Reactors**

**Hosted by the**

**Government of the Czech Republic**

**through the**

**State Office for Nuclear Safety (SÚJB)**

**Prague, Czech Republic**

**4–8 December 2023**

**Ref. No.: EVT2204797**

## **Information Sheet**

### **Introduction**

The Small Modular Reactors (SMR) Regulators' Forum is a regulator to regulators group. Its Terms of Reference states that the purpose of this Forum is to identify, enhance understanding of and address key regulatory challenges that may emerge in future SMR regulatory discussions. This will help enhance safety and efficiency in SMR regulation, including licensing, and enable regulators to inform changes, if necessary, to their requirements and regulatory practices. The IAEA is functioning as Scientific Secretary to promote and facilitate the Forum activities. During its March meeting of 2019, the Steering Committee of the SMR Regulators' Forum decided to disseminate the identified regulatory challenges related to SMRs to embarking countries through workshops. According to IAEA Safety Standards, from the earliest phase of the development of safety infrastructure, the prime responsibility for safety rests with the prospective facility operating organization. The government, on the other hand, is required to establish an effective governmental, legal and regulatory framework to support a high level of safety.

SMRs offer a viable alternative to larger nuclear power reactors due to their smaller size and potential inherent safety characteristics. In terms of needed political and financial commitments. SMRs can be built in larger numbers, more quickly and in remote locations throughout the world. For these reasons, SMRs might represent a more attractive option to both embarking countries and countries expanding their existing nuclear power programmes. Those States have varying capabilities — ranging from no nuclear experience to experience with laboratory scale nuclear facilities and industrial applications, the operation of research reactors or the handling of radioactive material in large amounts. In this context, States may struggle with the licensing of SMRs due to uncertainties regarding applicable safety requirements, which at present focus mainly on the reactor designs commercially deployed. National safety requirements need to take into account the specific features of SMRs and the application of a graded approach to existing safety requirements.

As design and deployment of SMRs around the world are at an early stage, the workshop will provide insights into the discussions held during the SMR Regulators' Forum meetings over the last several years. Regulatory bodies' staff participating in the workshop will benefit from the conclusions of such discussions, thus clarifying regulatory views regarding SMR safety case proposals and regulatory practices that need to be reevaluated. The workshop will be supplemented by presentations on the current SMR technologies and country-specific presentations by invited expert members of the SMR Regulators' Forum.

## **Objectives**

The purpose of the workshop is to enhance the knowledge of Member States' regulatory bodies on challenges identified by members of the Forum in regulating Small Modular Reactors and to inform changes, if necessary, to their requirements and regulatory practices.

## **Target Audience**

This workshop is intended for regulatory staff and experts from the regulatory bodies of countries embarking on a nuclear power programme or countries considering expanding their nuclear power programmes and considering the deployment of SMRs in the medium term.

## **Working Language(s)**

English

## **Topics**

The following topics will be covered during the workshop:

- Legal and regulatory framework for safety and functions and responsibilities of a regulatory body;
- Different designs of SMRs;
- Application of Defence in Depth and graded approach to SMRs;
- Emergency Planning Zone for SMRs;

- Licensing process challenges related to SMRs;
  - Key regulatory interventions;
  - First of a Kind (FOAK) vs nth of a Kind (NOAK) Designs;
  - Licensing of multiple module/unit facilities;
- Design and Safety Analysis for SMRs;
  - Multi-unit, multi-module aspects of SMRs;
  - Considerations in the use of passive and inherent safety features in SMR designs;
  - Aspects of beyond design basis analysis relevant to SMRs;
- Manufacturing, construction, commissioning, operations issues;
  - Manufacturability, supply chain management and commissioning of SMRs;
  - Collection and Use of Experience in the Lifecycle of Small Modular Reactor facilities;
  - Conduct of Maintenance in an SMR;
  - Conduct of Co-activities and Combined Activities on a Multiple Unit SMR Facility Site;
- Work of the SMR Regulators Forum from January 2021 (Phase 3).

## Participation and Registration

All persons wishing to participate in the event have to be designated by an IAEA Member State or should be members of organizations that have been invited to attend.

In order to be designated by an IAEA Member State, participants are requested to send the **Participation Form (Form A)** to their competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA or National Atomic Energy Authority) for onward transmission to the IAEA by **29 September 2023**. Participants who are members of an organization invited to attend are requested to send the **Participation Form (Form A)** through their organization to the IAEA by the above deadline.

Selected participants will be informed in due course on the procedures to be followed with regard to administrative and financial matters.

Participants are hereby informed that the personal data they submit will be processed in line with the [Agency's Personal Data and Privacy Policy](#) and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required. Further information can be found in the [Data Processing Notice](#) concerning IAEA InTouch+ platform.

## Expenditures and Grants

No registration fee is charged to participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event.

The application for financial support should be made using the Grant Application Form (Form C) which has to be stamped, signed and submitted by the competent national authority to the IAEA together with the Participation Form (Form A) by 29 September 2023.

## **Visas**

Participants who require a visa to enter Czech Republic should submit the necessary application as soon as possible to the nearest diplomatic or consular representative of Czech Republic.

## **Organization**

### **Scientific Secretary**

#### **Ms Paula Calle Vives**

Division of Nuclear Installation Safety  
Department of Nuclear Safety and Security  
International Atomic Energy Agency  
Vienna International Centre  
PO Box 100  
1400 VIENNA  
AUSTRIA

Tel.: +43 1 2600 22664

Fax: +43 1 26007

Email: [p.calle-vives@iaea.org](mailto:p.calle-vives@iaea.org)

### **Administrative Secretary**

#### **Ms Olga Rebikova**

Division of Nuclear Installation Safety  
Department of Nuclear Safety and Security  
International Atomic Energy Agency  
Vienna International Centre  
PO Box 100  
1400 VIENNA  
AUSTRIA

Tel.: +43 1 2600 24287

Fax: +43 1 26007

Email: [O.Rebikova@iaea.org](mailto:O.Rebikova@iaea.org)

Subsequent correspondence on scientific matters should be sent to the Scientific Secretary/Secretaries and correspondence on other matters related to the event to the Administrative Secretary.

# Participation Form

## Educational Workshop on Regulatory Challenges in Small Modular Reactors

Prague, Czech Republic

4 to 8 December 2023

To be completed by the participant and sent to the competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA, or National Atomic Energy Authority) of his/her country for subsequent transmission to the International Atomic Energy Agency (IAEA) either by email to: [Official.Mail@iaea.org](mailto:Official.Mail@iaea.org) or by fax to: +43 1 26007 (no hard copies needed). Please also send a copy by email to the Scientific Secretary, Ms Paula Calle Vives, Division of Nuclear Installation Safety, Department of Nuclear Safety and Security (Email: [p.calle-vives@iaea.org](mailto:p.calle-vives@iaea.org)) and to the Administrative Secretary, Ms Olga Rebikova, (Email: [O.Rebikova@iaea.org](mailto:O.Rebikova@iaea.org)).

Participants who are members of an invited organization can submit this form to their organization for subsequent transmission to the IAEA.

**Deadline for receipt by IAEA through official channels: 29 September 2023**

Family name(s): (same as in passport)	First name(s): (same as in passport)	Mr/Ms
Institution:		
Full address:		
Tel. (Fax):		
Email:		
Nationality:	Representing following Member State/non-Member State/entity or invited organization:	

Participants are hereby informed that the personal data they submit will be processed in line with the [Agency's Personal Data and Privacy Policy](#) and is collected solely for the purpose(s) of reviewing and assessing the application and to complete logistical arrangements where required. Further information can be found in the [Data Processing Notice](#) concerning IAEA InTouch+ platform.
