The Secretariat of the International Atomic Energy Agency (IAEA) presents its compliments to the IAEA's Member States and has the honour to draw their attention to the **Technical Meeting of the INPRO Collaborative Project Analysis Support for Enhanced Nuclear Energy Sustainability Pilot Study (ASENES) "Potential of Innovative Nuclear Installations to Support Multi-Recycling of Fuel in a Nuclear Energy System"** (hereinafter referred to as "event") to be held at the IAEA's Headquarters in Vienna, Austria, from **4 to 8 December 2023**.

The purpose of the event is to:

- To Review and approve the activities of the Analysis Support for Enhanced Nuclear Energy Sustainability pilot study on the development and analysis of scenarios involving initially small numbers of innovative nuclear energy installations to support the multi-recycling of fuel in a nuclear energy system;
- To Present and discuss the progress of ongoing studies on the topic; and
- To Define contributions prepared by the project participants.

The attached Information Sheet provides further details of the event.

The event will be held in English.

Member States are invited to designate one or more participants for this event. Member States are strongly encouraged to identify women participants.

The IAEA is generally not in a position to bear the travel and other costs of participants in the event. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally one participant per country, provided that, in the IAEA's view, the participant will make an important contribution to the event. The application for financial support should be made at the time of designating the participants using the attached Grant Application Form (Form C).

It should be noted that compensation is not payable by the IAEA for any damage to or loss of personal property. The IAEA also does not provide health insurance coverage for participants in IAEA events. Arrangements for private insurance coverage on an individual basis should therefore be made. The IAEA will, however, provide insurance coverage for accidents and illnesses that clearly result from any work performed for the IAEA.

The Scientific Secretaries of the event will liaise with the participants directly concerning further arrangements, including travel details, as appropriate, once the official designations have been received.

The Secretariat of the International Atomic Energy Agency avails itself of this opportunity to renew to the IAEA's Member States the assurances of its highest consideration.
